

U.S.-Canadian Albacore Treaty, In response to the request for input on the aforementioned Treaty.I have been an Albacore Fisherman for 31 years.Plying the waters of the Pacific Ocean from American Samoa To Japan and the entire West Coast and In a couple of Instances The Canadian Coast for Albacore Tuna.My feelings on this treaty are that the Canadian Boats who do come into our waters are for the most part Hard Working Fisherman like anyone else that does this for a living but, some can be very aggressive,discourteous and don't seem to know the proper protocol.I have had things happen like" being cut-off from a small spot I had been working "and had to radio them in response to it.There just isn't enough space here to elaborate.It is my opinion that the current number of permitted Canadian Vessels not be Increased.I would like to see a reduction in Canadian Vessels allowed to fish inside of 200 miles here.

Thank You,

Don Jacobs
